

# CONTRACT PRODUCTION

## SUPPORT AND SERVICE

### Mechanical processing – of the highest quality and flexibility

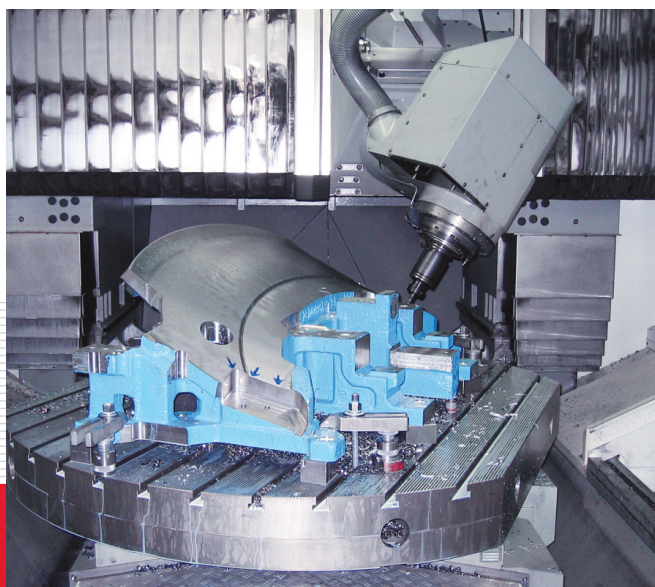

Degner offers you the highest level of competence and quality in the production of individual parts and small batches. Through continuous investments and highly trained flexible employees, we offer you services of the highest quality. Our customers value us as a flexible partner with high know-how in mechanical processing. We process all machinable materials including hardened steels.

#### ■ Drilling and milling up to 5000 mm x 2500 mm x 1750 mm

- Small and bulky parts up to 25 t
- Highly sophisticated geometries
- Milling of single components for assembly
- Freeform-, hard- and high speed cutting in perfection
- High feed cutting especially for panel processing
- 5-sided machining
- 3 to 5 axis simultaneous milling
- Rotary table machining
- NC-programming – 100% collision-tested off-line programming based on 3D models

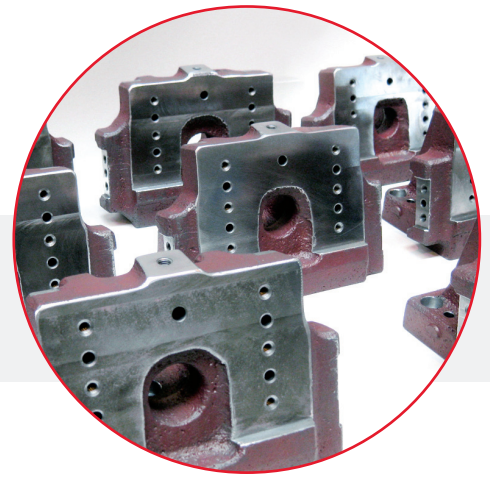

**In addition to the contract production our project management team can offer you the following services:**

- Procurement of models, materials and castings
- Necessary heat treatment
- Post-machining / finish
- Coatings

# CONTRACT PRODUCTION

## SUPPORT AND SERVICE

- **Surface grinding** up to 1200 mm x 600 mm x 750 mm
- **Wire-cutting** up to 400 mm x 250 mm x 250 mm
- **Sawing** up to 520 mm x 620 mm
- **Stamping** up to 10000 kN pressing force for tryouts and small batch series
- **Measuring** with stationary and mobile 3D surface measuring technology
- **Assembly** of single operations and up to complex dies
- **Logistics** payloads of up to 50 t

Thanks to the latest CAD/CAM systems we are able to process all common data formats. Of course, we also manufacture according to plans, patterns or models and create files as requested. Take advantage of our expertise and our resources for your products and benefit from our short delivery times and delivery reliability which is ensured by close project support and part tracking in optimised process chains.

Through our project management, we are able to manufacture, machine or partially machine individual components or small batch series - flexibly, in the highest quality and on a short notice.

Use our expertise and resources for your products.
