

# EXTENDED WORKBENCH

## QUALITY AND PRECISION

### Support from specialists

With high a production capacity and distinctive flexibility, DEGNER will support your manufacturing and assembly with years of experience for planned and unplanned processes.

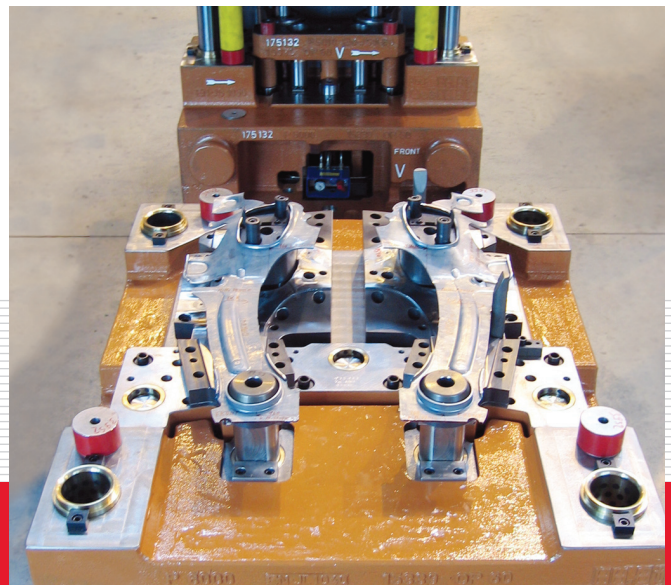

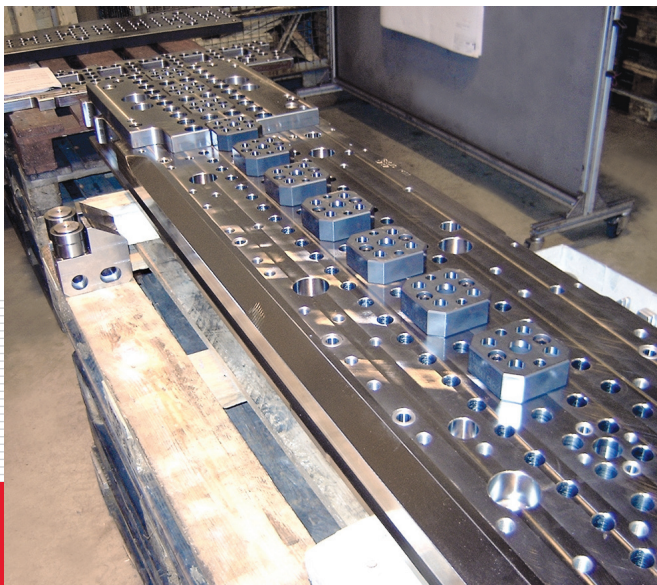

Take advantage of our state-of-the-art technologies, our production capacity and our production capabilities.

- **Individual components**
- **Assembly groups** - partial assembly or functions tested
- **Individual operations** - including tryouts
- **Spare parts** - according to data, pattern or fitting
- **Maintenance and repair of foreign tools**
- **Modification, optimisation and completion of foreign tools**

DEGNER strengthens your manufacturing by functioning as an extended workbench in case of machine failure, overcapacity, outsourcing of production segments and last-minute alterations.

We will realise your projects correctly, on time and integrate ourselves seamlessly into your process chain.

Increase your manufacturing capacity and flexibility with us as your partner.
